

Description

Structured as a collaborative, creative research group, Art & Ecology explores artistic responses to environmental sustainability and related social issues. In the first half of the semester, the course examines select themes in environmental discourse, paying particular attention to how artists have engaged them. In the second half of the semester, students develop collaborative or individual projects that may take the form of social/relational art practice, video, installation, performance, writing, sound, 2- or 3D forms, and/or electronic media. In-class activities are supplemented with field trips, screenings, and guest presentations, and special effort is made to connect students to university and community resources. Emphasis is placed on critical approaches rooted in the humanities, but students are welcome from all disciplines. Students from disciplines outside the arts are encouraged to contact the instructor prior to the first day of class.

Goals and Objectives

1. Understand key themes in contemporary environmental art practice through research, viewing, and discussion
2. Develop a formal and critical vocabulary through discussion and critique of artworks dealing with environmental themes.
3. Enhance research and writing skills for critical and creative inquiry in the arts.
4. Gain experience working in a community-based setting by developing and implementing a collaborative project with other students in the class for an Iowa City environmental organization.
5. Build aesthetic and conceptual sophistication through the creation of one major project exploring ecological issues through art.
6. Engage in an interdisciplinary learning environment through presentation, discussion, and collaboration.
7. Prepare and present work in a group exhibition with other course participants.

Seashore Hall, 6th Floor

The administrative home of this course is the College of Liberal Arts & Sciences.

Expectations

This upper-division course is structured to be responsive to students' backgrounds, interests, and existing creative practices while encouraging them to explore or further develop original work exploring ecological forms and themes. In contrast to the "expert" model typically found in higher education - in which a professor determines everything that will be presented and discussed in class - this course is structured as a collaborative, creative laboratory. Beyond several weeks of conceptual introduction, the detailed resource list appended to this syllabus, and some pre-planning involving the collaborative project with the Miller-Orchard Community Garden, the specific content of the course will be student driven, with the instructor acting as a resource person, respondent, and creative facilitator for student work. This structure demands that everyone - students and instructor alike - be exceptionally cooperative, respectful, good-humored, and well-prepared while also willing to take intellectual and creative risks. Students are expected to make a serious, sustained commitment to individual and group research, which includes making regular journal entries, contributing to discussion, and developing your project over the course of the entire semester. As per CLAS guidelines, students should expect to spend at least eight hours per week on this course outside class meeting times.

As course instructor, I expect to be consistently challenged to expand my knowledge and deepen my understanding of art and ecology over the course of the semester. I pledge to personalize each student's experience of the course by forwarding information, articles, and announcements, returning email within 24 hours (excepting weekends), and meeting with students outside of class and office hours when necessary for discussion and technical assistance.

Service Learning

Because much work on art and ecology has been done by artists working in community settings, this course is a natural fit for a service learning project. Service learning is a method of education that emphasizes the integration of community service with learning and reflection. The project for this semester is being undertaken in collaboration with the Miller-Orchard Community Garden. The garden has asked that our project fall into one of two broad categories. We could either propose some sort of physical project to enhance the garden's appearance and foster conviviality (e.g. make it look more welcoming from the street, create a patio for socializing, etc.) or coordinate an event designed to foster neighborhood involvement in the garden.

Our contact person is Katherine Parker Bryden, who received her MFA from Intermedia in 2006. She will be visiting the class at least twice during the semester to describe the garden, including challenges it faces, and discuss our possible project. We will visit the garden briefly on the second

week of class, and students should plan to spend some time in the garden as they develop their collaborative proposals. All students are also asked to participate in one of two Saturday workdays in preparation for our project. In addition, the class will assemble a reader, based on our own research, on fostering community participation in cultural projects to give to Katherine and the garden volunteers.

The primary form of documentation and evaluation for individuals' contributions to this project will take the form of a project journal. There are several journal prompts outlined in the syllabus that should be responded to the weeks they are assigned. Beyond these, use the journals to respond to any 'critical incidents' in the project - times when a decision was made, a conflict was discovered or addressed, or when you had a realization. Throughout the semester, I may make additional formal prompts at obvious critical incidents, but you may find turning points in your own process of which I am unaware. Also use this space to record notes about class and small group discussions and to do sketchbook activities - jotting down ideas, making thumbnails, writing to do's, noting artists or images that particularly strike you. I will collect and respond to these journals formally near midterm (March 3), but we will also periodically share from them during the semester. The journal will be due as part of the final portfolio described below.

Texts

There is no required text for this course; all instructor-assigned texts will be distributed as pdfs and web links. Students are also responsible for assigning one reading of 10-15 pages to support their research presentations. These readings must be distributed to the class at least two weeks prior to the scheduled presentation.

Materials and Equipment

Intermedia makes every effort to provide equipment for its students. There is a lab fee of \$61 to cover the cost of equipment and software maintenance. Each student will receive 100GB of free storage on the Intermedia XSAN, an account for the computer lab, and access to our equipment pool. Students are expected to acquire any additional supplies their work requires.

To help insure equipment is available and in working order for everyone, please test equipment condition upon check-out and report problems, damage or loss as soon as possible. All equipment must be returned on time. Equipment loans are subject to late fees of one dollar per hour, and up to five dollars daily. Habitual late returns will result in loss of checkout privileges. Students will be charged the cost of repair or replacement of equipment if damaged or lost.

Experimentation with different materials is encouraged, but students must exercise judgement. Due to the communal space of the Studio Arts Building, the use of solvents, spray paint or any fume producing chemical is prohibited outside of designated areas. Guns, blood, bodily fluids, live animals, smoke, fire, alcohol, and broken television tubes (which contain lead) are absolutely prohibited. Be aware of the toxicity of your materials and consult with the instructor if you are uncertain about the safety of a material.

Field Trip

The class will travel to the Quad Cities on March 24 for a field trip/expedition/presentation with artist, educator and re-naturalist Brian D. Collier (<http://briandcollier.com>). There is a supplemental course fee of \$20-\$50 to cover the cost of this trip, including van transportation from Iowa City. Additional short readings may be assigned to prepare for this trip.

Coursework

All students will complete the following coursework over the course of the semester, with the noted grade weighting. Documentation of all work must be included in a final digital portfolio (with the exception of project journals, which are physical) and submitted by Monday, May 9, 5:00 PM in order for a grade to be assigned in the course. Failure to submit the portfolio will automatically result in a failing grade, since the only components of the course that can be graded prior to the final are your contribution to the reader and your research presentation.

Community Engagement Reader: 5%

As part of our project with Miller-Orchard Community Garden, we will assemble a 'how-to' reader with an annotated bibliography on means of fostering community engagement. Each student will find one article that seems particularly useful and write a 250 word critical summary to include in the reader. Suggestions for starting points are listed in the attached bibliography, but students are expected to delve deeper than these sources and to read more than the article they ultimately select to share with the class.

Student Research Presentations: 20%

Each student will prepare a half hour presentation on their selected area of research for the semester out of which they expect to produce their final creative project. Some themes and starting points are included on the attached bibliography, but this is not exhaustive. Presentations should include a slideshow with relevant visuals and/or media, must be accompanied by a contextualizing reading of 10-15 pages, and a narrative summary of the theme. Readings are due to other students (electronically) two weeks before your scheduled presentation.

Service Learning Project: 20%

All students are expected to contribute conceptually and materially to the Miller-Orchard Community Garden project and to document their engagement in the project journal. Journal should go beyond the assigned prompts and include documentation of process and product, as described above.

Participation: 25%

Given the structure of the class, active participation in discussion, critique, and group projects is vital. Studio arts practice has a tradition of oral critique, and students must also verbally share their thoughts generously, respectfully, and frequently throughout the semester in order to earn a top grade in the course. Recognizing that people have varying levels of comfort with verbal participation, we will try during the early weeks of class several techniques to foster universal

participation. However, as the semester continues, discussion is likely to become more free-form. Please let me know if there is anything I can do to make it easier for you to participate verbally in the class discussion.

Final Creative Project: 30%

Students will develop final creative projects employing ecological forms and themes using the media of their choosing. It is expected that the project will directly relate to the research topic for the semester. Projects may be collaborative or individual but must be presented to the broader university and city community in a public exhibition to be coordinated by the instructor and students that will coincide with SAAH Open House and our final critiques. Proposals for final projects will be due in written form (2-4 pages, with sketches) and for informal in-class discussion on March 24.

Grading

Grading will be on a A to F scale, with plus and minus grades awarded. While I do not notify students of grades on individual course components, students are also welcome to contact me at any time to learn how they are doing in the course. I interpret letter grades to mean the following:

A+ / A / A-	Superior accomplishment
B+ / B / B-	Above average achievement
C+ / C / C-	Average work
D+ / D / D-	Below average achievement
F	Failure to meet basic course requirements

Course Policies

Because class meets only once per week, attendance is imperative. Students may be absent for any reason or no reason ONCE during the semester. Any absences beyond the first will result in a grade reduction, excepting extreme and documented circumstances to be evaluated on a case-by-case basis. An unexplained habit of late arrival or early departure will also result in a grade reduction.

Late creative projects and written work will not be accepted under any circumstances. Because this course is student-driven, failure to give a presentation on the expected date will not merely inconvenience the instructor but rather undermine the entire class. Only in extreme and documented circumstance, to be evaluated on a case-by-case basis, may presentations be rearranged with the consent of other course participants.

Student work completed in this course will be archived by the Intermedia program and the instructor and may be used for documentation, demonstration, and promotional purposes.

Schedule of Class Meetings (subject to change)

Unit I: Observing January 20 Course Introduction

Keywords exercise

Survey of Environmental Art

Introduction to Miller-Orchard Community Garden

Assignment: Prepare 5-minute slideshow presentation on one gardening-related art project. Describe the strengths and weaknesses of your chosen project. Due January 27.

Journal Prompt: Respond to Katherine Parker Bryden's introduction to the garden. What do you think of the challenges and possibilities she described? How do you feel about the class's involvement in this site?

January 27

Art/Gardening

Class meets at the Miller-Orchard Community Garden at 3:30 PM but then will move to Studio Arts

Reading due: Pollan

5-minute presentations on gardens in art

Screening: *The Garden* (Scott Hamilton Kennedy, 2008)

Assignment: Research the "how to" of fostering community engagement, starting with the sources in the bibliography and working into their sources. Bring one article or book chapter (as a pdf) that you think may be particularly helpful for the garden project. Write a 250 word critical summary, including full bibliographic information, as a Word doc. Bring to class and place an electronic copy in my drop box. Due February 10.

Journal Prompt: The South-Central Farm was passionately defended by the community that gardened there, while the Miller-Orchard Community Garden has described difficulty attracting sustained interest from people in the neighborhood. What do you think accounts for some of the differences in terms of local investment in the two gardens, beyond obvious and significant differences in size and duration? How might lessons from the film about conflicts within 'the community' inform the way you think about our more modest garden project?

February 3

Art/Community

Class meets at the University Athletic Club, 1360 Melrose

Reading due: Kester, Kwon, HaHa

Attend Professor Kanouse's Elliot Society Lecture

Journal Prompt: How do the readings for today make you think about our involvement in the Miller-Orchard garden? Which writer do you ultimately feel most aligned with? Which are the most provocative to you?

February 10

Art/Community/Garden

Professor Kanouse in New York/Katie Hargrave subs
Present and discuss community engagement "how to" articles

Brainstorming on Miller-Orchard Community Garden
Sign up for research presentations

Assignment: Come to class with a one-paragraph description (an "abstract") of your research topic for the remainder of the semester. Due February 17.

Assignment: Based on the brainstorming exercise, work with a small group (1-3 other people) to develop one of the ideas generated today into a more formal proposal. Plan to spend several hours visiting the garden site at different times of day over the course of the next two weeks. Consider the budget and timeline for the project, as well as how it might get others in the neighborhood involved. Due for presentation (as powerpoint as well as written/illustrated documented) on February 24.

February 17

Art/Ecology

Reading due: Morton, Wallis, Laboratory of
Insurrectionary Imagination, Pentecost
Screening/discussion: *Lessons of Darkness* (Werner Herzog, 1992)

Discussion of student research topics

Readings assigned for first round of presentations

Journal Prompt: The kinds of critical and deconstructive projects about 'nature' as a conceptual category engaged by Morton are often considered counterproductive to activist campaigns for environmental protection. After spending some time discussing this 'social nature' approach, what do you think about its political and aesthetic implications? Thinking back to Pollan's use of the garden metaphor, is there a way to connect Latour's philosophical project with the practical work we are doing with the community garden?

Unit II: Planting

February 24

Miller-Orchard Community Garden Project Intensive

Present and discuss garden project proposals with Katherine Parker Bryden
 Discuss and finalize project proposals
 Readings assigned for the second round of presentations
 Journal Prompt: How do you feel about the project selected? What do you think of the process? What problems do you predict as we move forward? What might be some solutions?

March 3 **Student Research Presentations:** _____
 _____ / _____ / _____
 _____ / _____ / _____

Journals due for midterm feedback

March 10 **Student Research Presentations:** _____
 _____ / _____ / _____
 _____ / _____ / _____

Journal Prompt: How have others' creative research made you rethink your own area of inquiry?

March 12 ***Miller-Orchard Community Garden Saturday Workday***

Journal Prompt: After participating in one of the two workdays, how does the experience affect what you think of the collaborative project? What did you learn from being there and working with others? What do you think it means to the gardeners and the neighbors that we are doing this work?

March 17 ***Spring Break - no class***

March 24 **Field Trip with Brian Collier - <http://briandcollier.com>**

Field Trip Readings Due
 Final Project Proposals Due

Journal Prompt: Reflect on what we saw and discussed during the field trip.

March 26 ***Miller-Orchard Community Garden Saturday Workday***

Journal Prompt: After participating in one of the two workdays, how does the experience affect what you think of the collaborative project? What did you learn from being there and working with others?

Unit III: Growing **March 31** **Project Workday**

April 7 **Project Workday**

	April 14	Work-in-progress critiques
	April 21	Project Workday Professor Kanouse in Toronto/Heath Schultz subs
Unit IV: Harvesting	April 24	<i>Deadline for Miller-Orchard Community Garden Project</i>
	April 28	Final Critique I All work must be installed in and around the Porch Gallery by 3:30 PM for Art & Ecology's final show
	April 29	<i>SAAH Open House/Art & Ecology Final Show Opening</i>
	May 5	Final Critique II
	May 9	Art & Ecology Portfolios Due

Core Readings

Gablik, Suzi. "Beyond the Disciplines: Art Without Borders." Position paper for the Monongahela Conference, Carnegie Mellon University, October 2004.

Haha (Wendy Jacob, Laurie Palmer, and John Ploof), eds. *With Love from HaHa* (selections). Chicago: Whitewalls, 2008, pp. 6-8, 57-69.

Kester, Grant. "Dialogical Aesthetics." *Conversation Pieces: Community and Communication in Modern Art*. Berkeley: The University of California Press, 2004, pp. 83-123.

Kwon, Miwon. "The (Un)Sittings of Community." *One Place After Another: Site Specific Art and Locational Identity*. Cambridge: The MIT Press, 2002, pp. 138-155.

Laboratory of Insurrectionary Imagination, "Users Guide to Demanding the Impossible," *The Long Weekend*, Goldsmiths, London, December 2010.

Morton, Timothy. *The Ecological Thought*. Cambridge, MA: Harvard University Press, 2010, pp. 1-20, 98-135.

Pentecost, Claire. "The Public Amateur." Artist's statement, ca. 2006.

Pollan, Michael. "The Idea of a Garden." *Second Nature: A Gardener's Education*. New York: Grove Press, 1991, pp. 176-201.

Wallis, Brian. "Survey." *Land and Environmental Art*. Jeffrey Kastner, ed. London: Phaidon, 1998, pp. 18-43.

SPRING 2011
School of Art and Art History Syllabus Information
The University of Iowa
Course policies are governed by the College of Liberal Arts & Sciences

Electronic Communication

University policy specifies that students are responsible for all official correspondences sent to their University of Iowa e-mail address (@uiowa.edu). Faculty and students should use this account for correspondences.

Homework Expectation

For each semester hour of credit that an Art and Art History course carries, students should expect to spend approximately two hours per week outside of class preparing for class sessions. That is, in a three-credit-hour course, instructors design course assignments on the assumption that students will spend six hours per week in out-of-class preparation.

Your Responsibilities

Your responsibilities to this class -- and to your education as a whole -- include attendance and participation. This syllabus details specific expectations the instructor may have about attendance and participation. You have a responsibility to help create a classroom environment where all may learn. At the most basic level, this means you will respect the other members of the class and the instructor and treat them with the courtesy you hope to receive in return.

Student Classroom Behavior

The ability to learn is lessened when students engage in inappropriate classroom behavior, distracting others; such behaviors are a violation of the [Code of Student Life](#). When disruptive activity occurs, a University instructor has the authority to determine classroom seating patterns and to request that a student exit the classroom, laboratory, or other area used for instruction immediately for the remainder of the period. One-day suspensions are reported to appropriate departmental, collegiate, and Student Services personnel (Office of the Vice President for [Student Services](#) and Dean of Students).

Academic Fraud

Plagiarism and any other activities when students present work that is not their own are academic fraud. Academic fraud is a serious matter and is reported to the departmental DEO and to the Associate Dean for Undergraduate Programs and Curriculum. Instructors and DEOs decide on appropriate consequences at the departmental level while the Associate Dean enforces additional consequences at the collegiate level. See the CLAS Academic Fraud section of the [Student Academic Handbook](#). www.clas.uiowa.edu/students/handbook/x/#2

Making a Suggestion or a Complaint

Students with a suggestion or complaint should first visit the instructor, then the course supervisor, and then the departmental DEO. Complaints must be made within six months of the incident. See the CLAS [Student Academic Handbook](#).

Accommodations for Disabilities

A student seeking academic accommodations should first register with Student Disability Services and then meet privately with the course instructor to make particular arrangements. For more information see [Student Disability Services](#) at www.uiowa.edu/~sds/

Understanding Sexual Harassment

Sexual harassment subverts the mission of the University and threatens the well-being of students, faculty, and staff. All members of the UI community have a responsibility to uphold this mission and to contribute to a safe environment that enhances learning. Incidents of sexual harassment should be reported immediately. See the UI [Comprehensive Guide on Sexual Harassment](#) for assistance, definitions, and the full University policy at <http://www.uiowa.edu/~eod/policies/sexual-harassment-guide/index.html>.

Reacting Safely to Severe Weather

In severe weather, class members should seek appropriate shelter immediately, leaving the classroom if necessary. The class will continue if possible when the event is over. For more information on Hawk Alert and the siren warning system, visit the Public Safety [web site](#).

Resources for Students

- [Writing Center](#) 110 English-Philosophy Building, 335-0188, www.uiowa.edu/~writingc
- [Speaking Center](#) 12 English-Philosophy Building, 335-0205, www.uiowa.edu/~rhetoric/centers/speaking
- [Mathematics Tutorial Laboratory](#) 314 MacLean Hall, 335-0810, www.uiowa.edu/mathlabTutor
- [Referral Service](#) Campus Information Center, Iowa Memorial Union, 335-3055, www.imu.uiowa.edu/cic/tutor_referral_service

CLAS Final Examination Policies

Final exams may be offered only during finals week. No exams of any kind are allowed during the last week of classes. Students should not ask their instructor to reschedule a final exam since the College does not permit rescheduling of a final exam once the semester has begun. Questions should be addressed to the Associate Dean for Undergraduate Programs and Curriculum.

Missed exam policy

University policy requires that students be permitted to make up examinations missed because of illness, mandatory religious obligations, certain University activities, or unavoidable circumstances. Excused absence forms are required and are available at the Registrar web site: www.registrar.uiowa.edu/forms/absence.pdf

University Examination Policy Final Examinations

An undergraduate student who has two final examinations scheduled for the same period or more than three examinations scheduled for the same day may file a request for a change of schedule before the [published deadline](#) at the Registrar's Service Center, 17 Calvin Hall, 8-4:30 M-F, (384-4300).

Plus-Minus Grading

All the department's instructors can append plus or minus grades to the letter grades they assign for the course. If the instructor does not specifically indicate in the syllabus that he or she will not assign plusses or minuses, students should assume that this form of grading will be used.

Woodshop Use and Fees

The School of Art and Art History Woodshop is a common use facility for any student enrolled in a studio art class. The woodshop has a \$25 per student per semester buy-back fee. All students who use the woodshop must pay this fee, which goes towards the replacement of consumables as well as equipment repairs, replacements and other shop related expenses. Students can opt to pay a one-time use fee of \$5 to work for one day only. However if they come back in for further use they must pay the \$25 lab fee at that time. This will mean that in total they will be charged \$30. The students will be U-Billed by the lab coordinator before they begin working. Students must also complete safety training and fill out a woodshop safety release form every semester to work in the shop. To do this they must see the Woodshop Lab Specialist, Adam Krueger. Woodshop open hours and schedules are posted on the door of the woodshop.

Students enrolled in classes that require the use of woodshop as part of their class instruction will be U-billed at the time of use.

Studio Model Policy and Guidelines

Drawing from the live nude model will be part of some drawing courses and may include models of any gender identity. Instructors and students should demonstrate consideration for the model and behave professionally and with respect. This will include an instructor discussing the purpose of particular poses with the model, and the right of the model to choose to accept or reject a given assignment. It is not appropriate to touch the model or ask that models touch one another in a pose. All sheets used in any modeling session are to be put in the laundry box located in 1820 SA. Only the faculty member and the students enrolled in the class are allowed in the studio classroom when the model is posing. The doors to classrooms using studio models should be kept closed, and signs posted on the door for privacy.
